CLUSTERS

OPTICALLY SOPHISTICATED.
AESTHETICALLY REFINED.

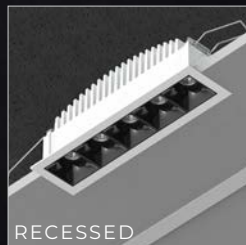

Clusters is the small, precise, and scalable system for downlighting. Based on a fundamental 1.2" square cell, Clusters provides a fresh, crisp look at architectural lighting. Clusters light in three dimensions. From a single cell, Clusters scale up to a linear or planar array; both mount in, on, or from the ceiling.

Optically, each cell holds a single LED emitter with a choice of precise light distributions for downlights, wall wash, and adjustables. Quiet and discreet, Clusters provides excellent visual cut off and a superior Unified Glare Rating (UGR) of 10.

Aesthetically, Clusters feature the scale, materials, and detailing for distinguished architectural interiors. See for yourself at www.lumenwerx.com/clusters-overview
